

International Bill Of Rights Proposed

By FRANCIS W. CARPENTER

NEW YORK, May 21.—(AP)—The United Nations Economic and Social Council, whose job it is to settle economic and social problems before they become conflicts threatening peace, will meet here Saturday with a number of ticklish problems on its doorstep.

THE COMMISSION on human rights, headed by Mrs. Franklin D. Roosevelt, has recommended that an international bill of rights be drafted as soon as possible and that a sub-committee on freedom of information and of the press should be appointed.

A special committee on refugees and displaced persons, meeting in London for more than two months, still does not have complete agreement on refugees—and the council must resolve that struggle.

The western powers have insisted that no refugee, except those war criminals for whom provision has been made, should be forced to go home, especially those who are against their present home governments.

THE PART THAT non-governmental, specialized agencies will play in the United Nations will figure in the meeting. They include the Food and Agricultural Organization, the International Monetary Fund, and the Bank for Reconstruction and Development.

The Economic and Social Council can only recommend and advise—it has no enforcement powers.

work stoppage when they failed to have operators sign a 1946 working agreement providing an 18-cent-an-hour wage increase, a 40-hour week and union recognition.

THE WORK STOPPAGE was beginning to have some effect on tugboats which tow log booms to mills.

One company's entire towing fleet is tied up and oillogs from stricken-bound logging camps have reached Vancouver. However, there have been no layoffs and towing operators said they were hopeful of finding other work during the next week.

IN VICTORIA, Labor Minister Pearson said "I have been hopeful that we might have something in the province's labor department which would indicate indications the federal government might already be arranging moves to settle the dispute."

Federal deputy labor minister MacNaughton said in a long distance telephone interview with the Vancouver News Herald last night that the department was keeping in close touch with the situation and "we are anxious to get them back to work at the earliest possible moment."

"I AM NOT SAYING that no steps have been taken," Mr. MacNaughton said in a reply to a question.

Meanwhile, union officials here received at company headquarters signed the union's proposed 1946 agreement incorporating the disputed demands.

Youth Remanded In Hold-Up Case

CALGARY, May 21.—(CP)—A 16-year-old youth from northern Alberta, who, police say, attempted to rob the cashier at the Variety Theatre Friday afternoon, was remanded to Thursday by Magistrate D. C. Sinclair Monday without the charge being read. Magistrate Sinclair said he wished to speak with juvenile court Judge A. G. Bund before accepting jurisdiction. The youth appeared in juvenile court Saturday and was remanded to police court. Questioned by Magistrate Sinclair, the youth, who has a mustache, said he was 16 in January. He said he had not admitted his parents that he was in trouble with police and facing a charge of attempted robbery.

Scientists to Study Reasons For Colds

LONDON, May 21.—(RUP)—Cambridge University opened a recruiting station today for students willing to walk out of a hot bath into the cold air and otherwise try to catch colds. The recruits will live in an unheated, baroque mansion. They will eat unhealthful food, take unpleasant inoculation, and all around sneezing in each other's faces. It is part of a scientific project headed by doctors and scientists from the British Institute for Medical Research. They want to find out why so many Britons get colds.

North Bay Founder Is Dead at 86 Years

NORTH BAY, Ont., May 21.—(CP)—A man who came to this area in 1881 with only an axe and a grub stake, built the first log cabin on the site of what was to become the city of North Bay, and to be mayor of the city he had founded and became a legendary figure in the turbulent early life of Northern Ontario, John Ferguson, 86, died yesterday at his home. The city immediately went into official mourning for Mr. Ferguson, who served as mayor for four consecutive years and was a member of city council for 18 years.

Britain to Boost Rates on Railways

LONDON, May 21.—(CP)—An increase in railway fares and freight rates—probably by one-sixth per cent—has been expected to go into effect in the United Kingdom July 1. It will be the first increase since December, 1940, when a one-sixth rise was permitted.

49 New Building Permits Granted

Forty-nine building permits totaling \$272,000 were issued by the city architect's office during the past two days. Of this total, 43 were for the erection of homes, value of the permits being \$179,500.

in the office where the cabin of the plane lodged.

An army announcement said the plane was flying from Smyrna, Tenn., to Newark, N.J., and probably overshot the Newark airfield in an overcast.

No one apart from the plane's passengers was injured in the virtually deserted building, located in the heart of Manhattan's Midtown district.

THE CRASH recalled that of a B-25 bomber that July 28 into the 79th floor of the 102-story Empire State building in mid-Manhattan. Fourteen persons, three army men and 11 office workers, were killed in that crash.

The plane involved last night ripped a 15-square-foot hole in the wall of a reception room which was little damaged.

Oil paintings hung around the room were slightly tilted. A scent two feet from the wall where the plane hit, tiny wooden figures of animals on shelves still stood, adding a grotesque touch to the blood-stained room. Desks and furniture in corners were littered with shattered glass, but otherwise undamaged.

OTHER OFFICES on the same floor were unscathed.

Power Extension

will build the line voltage up to 66,000 volts and is made necessary because of increased consumption.

When the program is completed the number of farmers utilizing electricity will total 500 in the surrounding area.

WHILE IN EDMONTON the power company head will confer with city commissioners concerning the interchange agreement, between the company and city for a frame and stucco store and dwelling.

The commissioners will make any announcement that will be made in this respect, he said.

Mr. Gaherty said he could not comment on operations of the company in the far north, such as Yellowknife. The Dominion government has now entered the field at Yellowknife with a vast hydro project at Sharn River.

THE MONTREAL Engineering company, of which Mr. Gaherty is president, is acting as consulting engineers to the project.

The Edmonton staff will be increased as a result of the expansion.

No New Reports Of Forest Fires

There was little to report from the fire-fighting crews who are fighting the forest fire menace in this province Tuesday, T. F. Bleigen, provincial director of forestry said. "We are holding our present line," he reported, "and there are no reports of any new outbreaks, but we certainly have our fingers crossed."

Rains at Grande Prairie are providing great assistance to the fire-fighters in that area and forestry officials are hoping that these showers will become more general.

Soviet Engineers Make Tiny Bearings

LONDON, May 21.—(CP)—Moscow radio reported yesterday a Russian engineer had perfected ball bearings that can be used to replace jewels in watches. Diameter of the balls, so small that 10,000 can be placed in a matchbox, was reported to be 1.5 millimeters.

28 Prisoners Die During Food Riot

QUETTA, Baluchistan, India, May 21.—(Reuters)—Twenty-eight convicts were killed and several injured when authorities at the central jail at Mach, 30 miles southwest of Quetta, opened fire Saturday to quell a riot of prisoners demanding increased food rations, it was learned yesterday.

Medicine Hat Girl Wins Writing Prize

MONTREAL, May 21.—(CP)—Two art students of McGill University will share this year's Chester MacNaughton prize for creative writing. It was announced last night by university officials.

The prize winners are Miss Vivian Fine of Montreal and Miss Florence Trotter of Medicine Hat, Alta.

School Principal Plans to Retire

Hon. D. B. MacMillan, minister of agriculture, on Tuesday announced the retirement from the provincial government service of Jaz. Murray, principal of the Olds School of Agriculture for the last 16 years and an employee of the Alberta department of agriculture since 1922, when he entered the service as district agriculturist at Medicine Hat.

Mr. Murray leaves the provincial service under superannuation, his retirement being effective as from June 10.

In announcing Mr. Murray's retirement, the minister paid high tribute to his long service with the department, first amongst the farmers of the south-eastern districts as a pioneer district agriculturist, and later in the field of education for farm youth as head of the provincial school of agriculture and home economics at Olds.

Mr. Murray was born in Scotland and came to Canada in 1904. He has been married and has three children.

War on Diseases

Two crews of University of Alberta medical students, under the direction of J. H. Brown, provincial entomologist, are assisting the endless war against spotted fever, bubonic plague and typhus in the south of the province. Mr. Brown reported Tuesday following his return from Southern Alberta.

INVESTIGATIONS have already shown that the population of spotted fever ticks is high in parts of the province. Brown said, and the crews have vaccinated more than 2000 people against this disease at three clinics.

The crews devote their time up to about the middle of June in combating the disease. The tick which causes spotted fever, and then turn their attention to the war against plague, bubonic fever and typhus, which are carried by sopors.

THE DISEASES are transmitted to humans when the infected bodies of dead gophers are handled, or humans may contract them through animals which have come across the dead gophers' bodies. More rarely, he said, fleas on the body of a gopher may transfer to a human body.

However, fleas which infect the bodies of rats transfer themselves more readily to the human body and form one of the main sources of infection for both bubonic plague and typhus, but although traps are set for them in the area where rats are suspected, there have been no reports of any as yet.

THE CREWS will transfer to the north in July and August and carry on investigations.

\$25,000 Is Sought In Damage Action

Damages totalling \$25,000 are sought in a statement of claim filed in supreme court Tuesday by the law firm of Newell, Lindsay, Emery and Ford on behalf of Mrs. Elsie M. A. Taylor, widow of George Taylor, who died from fatal injuries received in a motor car accident on the Calgary highway on Nov. 23, 1945.

The plaintiff is claiming \$10,000 damages for herself, \$10,000 for her daughter Joan, and \$5,000 for loss of life expectancy of her husband. Defendant to the action is James T. Bailey, Calgary machinist.

Many Children Are Inoculated

Edmonton health department was extremely busy Tuesday morning as hundreds of children presented themselves for inoculation against diphtheria and vaccination against smallpox.

The children attending the immunization clinic were those missed in the recent campaign staged in city schools. More than 150 inoculations were given during the morning hours at the clinic.

Taxes Set Record

Setting an all-time record for first instalment of property and land tax collections a total of \$713,707.11 cents poured into the city treasury this year compared with \$603,053.83 paid under the first instalment collection in 1945, the previous record, according to figures released Tuesday by Thomas Walker, city assessor.

Gov't. Will Share Costs For Home

The provincial government will pay 50 per cent of the cost for improvement of the South Side home for delinquent children, according to a statement made Tuesday by Hon. Dr. W. W. Cross, minister of public health and welfare, on his return from an extensive trip in the east during which he attended the Dominion-provincial conference on child welfare.

WITH REGARD to the statement in a Calgary paper recently that the government will pay 50 per cent of the cost of a delinquent's home, Dr. Cross stated that the statement was not quite so. "If the Calgary city council will submit figures showing the cost needed for construction they will be taken up by the cabinet here," he explained.

Grain Prices

(Continued from Page 1)

Higher prices for coarse grains be paid on all deliveries since Aug. 1, 1945, and that the five cents a bushel premium to growers of maturing barley be restored.

MR. LAMONG said he had been referred to the wheat committee of the Dominion cabinet for consideration.

In a statement, he charged that prairie farmers are compelled by the government to dispose of coarse grains to eastern and British Columbia feeders at less than the true value of the grains. The eastern and B.C. feeders are "highly subsidized," he said.

"There is no logical reason why either wheat or coarse grain growers should be compelled to dispose of their grains at less than their true value," Mr. Lamont said.

The farmer is forced to sell his wheat for 30 cents a bushel less than the export price.

CANADIAN GROWERS are paid a initial price of \$1.25 a bushel. Northern, Fort William, and the export price is \$1.55 a bushel.

"The American farmer now is being paid on the basis of \$2.30 a bushel for wheat," Mr. Lamont said. "This is equivalent to \$2.53 in Canadian funds."

Mike Seeks New Field

TOHONTO, May 21.—(CP)—Mike Mitto, fabulous prospector who made a fortune in the Yellowknife field, was in Toronto yesterday preparing to move again—this time to Val D'Or, Que., where Mike years ago built the first house in what now is a thriving little city of about 10,000 inhabitants.

Mitto is thinking of heading for the Schreiber area of Northwestern Ontario later, before the snow flies, or maybe he'll head for Idaho and go on a prospecting trip with the United States war veteran Herb Holland of Los Angeles, who was Mitto's protégé up in Yellowknife and Salmista a couple of weeks ago after a last plane trip that resulted in a \$1,000,000 prospecting find.

FOR A FEW HOURS, HOWEVER, Mike stayed put yesterday. His hotel room was crisscrossed with two portable radios, expensive pigskin bag, a bush-tanned pack and Mike himself, husky and bronzed in a black suit with a white shirt and tie.

Right now Mike's sitting pretty, but he well remembers when he lived on bread and bacon for weeks, and when a mouse kept him from sleeping in his bed in a rooming house in British Columbia 28 years ago. He's worked Timmins, Northern Quebec, Kirkland Lake and the Northwest Territories.

Weather

Increasing cloudiness has been reported overnight in Northern Alberta and the Peace River region and is moving southwestward into the Edmonton region. The cold front which was yesterday expected to give very high winds in Southwestern Alberta is proving less violent than anticipated, although it has brought gusts of 40 miles an hour to the Peace River. The system will give 20 mph gusts in showers this afternoon in Alberta.

likely be constructed in the Peace River area, either at Peace River or Grande Prairie, Edmonton and Vancouver and the facilities are available.

IT IS UNDERSTOOD that the project would be manufactured as a new process developed as a result of recent scientific research with the object of providing vast quantities of household furniture at extremely low price levels.

Leading American business men behind the project are known to have been working for some months on negotiations for obtaining the timber through federal and provincial channels.

IT IS REPORTED that practically all details of the project have now been completed.

It has also been known for some time that pack trains have been out in the heavily-timbered sections of the Peace River district for several weeks. Men in charge of the pack outfits have told trappers and farmers in the area that they are cruising timber for a "large United States concern."

Artistic Mother, Daughter in City

Famed for their life-sized sketches of husky dogs, Eskimo natives and other northern "subjects," Mrs. Nina Crumrine and her daughter, Josephine, of Juneau, Alaska, are Edmonton visitors, staying at the Royal George hotel.

While in Edmonton they plan to do a charcoal sketch of a dog pet of E.H.R. "Red" Field, recently appointed general superintendent of CP Air Lines, Western Lines.

THEY HAVE JUST returned from six weeks at Bangor and will return to Juneau by CP Air Lines toward the end of next week.

The talented mother and daughter have visited Edmonton several times.

Indian and dog images on CP dining room car menus were painted by the Crumrines.

Identify Edmonton Soldier in Court

AMSTERDAM, May 21.—(CP)—Two eyewitnesses said yesterday they saw Louis Hendrick Stork, Netherlands Air Force sergeant, drive a Jeep away from an Amsterdam cafe last Jan. 19 with Pte. Stefan Knaap, Edmonton and Vancouver and Pte. John Merkle of Gravenhurst, Ont., as passengers.

The two-Marie Huismann and Andrianus Knaap—were testifying at the military trial of Stork charged with the murder of Stork on Jan. 19. They said that prior to driving away Stork, the sergeant went with the two Canadians, who insisted they were United States merchant sailors who wanted a lift to their ship. Both identified Knaap in court.

Previously identified that Stork promised to return for them in a jeep but that after waiting more than an hour at the cafe they left.

Bill in Commons

Air Force Cadets
To Be Permanent

OTTAWA, May 21.—(CP)—Royal Canadian Air Force cadet squadrons, born during the war years, will be continued into the peace years under a bill given second reading last night in the Commons.

Calls For Hoist
Canada Day Bill

OTTAWA, May 21.—(CP)—Senator Arthur Roebuck (L-Ontario) last night suggested in the senate a one to three year hoist for the contentious Canada Day bill but declared he thought the word "nation" should be substituted for the word "dominion" in the British North America Act.

The bill, already approved on division by the commons, would change the name of the July 1 holiday from "Dominion Day" to "Canada Day."

Senator Roebuck said he was going to vote against the bill because it was generally unpopular in Ontario, there was no real need for it and no urgency in its passage.

HE SYMPATHIZED with the Canadian purposes of the bill but he thought there was great need for advocacy of the bill throughout the country to ensure general public support.

He thought there had been "indecisive haste" in the passage of the bill through the commons.

Therefore, he considered a period of delay was needed "say one, two or three years."

Gen. Chisholm Says:

Regular Weapons
Of War Outmoded

BUFFALO, N.Y., May 21.—(CP)—Any government that "becomes convinced that it will have to fight any other country at any time would be very foolish indeed not to neutralize that other country at once," Maj.-Gen. G. Brock Chisholm of Ottawa, deputy minister of national health and welfare for Canada, told the National Conference of Social Work here last night.

"ANY REALISTIC government can be counted on to take such action," said the former director-general of medical services for the Canadian Army, who was promoted to his present post in 1944.

Gen. Chisholm, whose war service includes wounds while serving in the Great War as a captain in Toronto's 48th Highlanders, said he thought guns, tanks, navies, armies and air forces are obsolete as fighting instruments except for "mopping up" operations in taking over a depopulated country.

He declared: "A thousand or so visitors could spread bacteria or toxins sufficient to paralyze any country's power of aggression."

Parents must "stop lying" to their children if mankind is to escape a third world war and perhaps total extinction.

It is difficult for us to boast of the American way of life, or the British way, or any other way which has allowed world wars I and II to occur with their ghastly loss of life and widespread suffering. If they go on in the same way, will of course also allow world war III which, if it comes, will destroy most of the human race."

DEMOCRATIC GOVERNMENTS are only as intelligent as their people, Gen. Chisholm said. "Only when enough voters are sensible and mature can their governments be expected to show these qualities. The intellectual integrity of children, which they all have in infancy, must be maintained undistorted and free. . . . We must tell them the truth."

U.S. Heavy Buyer
London Fur Sale

LONDON, May 21.—(Reuters)—Americans formed 90 per cent of the buyers at London's second big fur sale yesterday at Beaver Hall here since the fur market reopened.

The furs sold by the Hudson's Bay Company brought about the same price as at the first big sale. More than 17,000,000 (\$31,150,500) worth of furs have been imported lately, and until yesterday, less than 10 per cent have been exported.

Undecided on Plans
To Belgian Congo

REGINA, May 21.—(CP)—R. E. Motherwell of Regina said in a statement Monday that he has not reached a decision whether he will let his name stand for leadership of the Saskatchewan Liberal Party at its convention August 5-6, but he is giving the matter consideration.

Woman Remanded
Year For Sentence

CALGARY, May 21.—(CP)—Mrs. Lucille Pleuti, 30, found guilty last week of receiving \$700 worth of stolen Victory bonds was remanded for sentence for one year Monday by Magistrate D. C. Sinclair on bond of \$200. Mrs. Pleuti, police said, sold \$700 worth of bonds stolen at Saskatchewan several months ago. Magistrate D. C. Sinclair, in remanding the young woman for sentence, suggested that restitution should be made. A watch Mrs. Pleuti bought with one of the bonds was ordered returned to the store from which she purchased it.

Police Guard Baker
Accused of Slaying

WINNIPEG, May 21.—(CP)—A coroner's jury today will view the body of 60-year-old Mrs. Harry Herman, fatally hacked with a father's hatchet, in a north end bungalow yesterday. Meanwhile a police guard continued to be posted at the hospital bed of Abraham Goodman, 65, night-shift bakery worker whom they accuse of the slaying. Goodman was taken to hospital after he had been found writhing in pain on a street near the bungalow and police claimed he had taken poison. Doctors said his condition was "fair" and that he probably would recover.

"Reefer" Addicts
Are in Decline

OTTAWA, May 21.—(CP)—The number of addicts to the narcotic Marijuana has declined "very considerably," Health Minister Claxton said last night in the Commons. Production of the weed also has declined, said Mr. Claxton, speaking during clause-by-clause study of a bill amending the opium and narcotic drug act. The bill later was given third and final reading.

Mining Firms Ask
Fairer Taxation

OTTAWA, May 21.—(CP)—The Western Quebec Mining Association said in a four-point brief presented to the senate natural resources committee today that the industry had "great capacity" to provide employment but "the outlook under existing onerous and complicated system of taxation is uncertain and clouded."

The association suggested:

1. That taxes paid by mining companies to provincial governments and municipalities be allowed as a deduction from earnings before assessment for Dominion tax purposes.
2. THAT THE DOMINION bullion handling charge of 35 cents an ounce be reduced to actual marketing cost to the government and that the "overage" which had accumulated to the government over the years be returned to the mining companies. The "overage" was described as the difference between the actual value of shipments to the Canadian mint and the amounts of the payments made to the shippers.
3. That the subject of depletion

be given careful study with a view to the adjustment of the current rates allowed in order to arrive at percentage allowances, both for companies and shareholders, "which would be fair and equitable."

4. That during the first five years of tax-paying life, mining companies be allowed to deduct first earnings, before taxes, depreciation up to a maximum of 75 per cent in any one year.

Military authorities in the tropics discovered that ice cream and shower baths were the two best remedies for combat fatigue.

A Stupid Change

Senator J. W. de B. Farris of British Columbia has advanced a set of clear and convincing reasons why the bill purporting to change "Dominion Day" to "Canada Day" should be defeated in Parliament.

His chief argument against the change is the charge that it violates and perverts the historical associations of the national holiday. As Senator Farris points out, the holiday commemorates not the birth of Canada but the birth of the Dominion of Canada. Canada was already a Dominion before the framing of the constitution in 1867 and the creation of "Dominion Day" in 1879.

The provinces of Upper and Lower Canada, Nova Scotia and New Brunswick were welded into a Dominion on a July 1st. On another July 1st, Rupert's Land, the North Western Territories and British Columbia were incorporated into the Dominion. On still another July 1st, Prince Edward Island came in. Thus the first day of July is intimately and historically associated, not with the creation of Canada, but with the creation of Canada as a Dominion.

Senator Farris has answered, too, the allegation that the term "Dominion" implies an inferiority in sovereignty. There is no such implication in the name at all. "Dominion," in this usage, is synonymous with "domain," which is employed generically to describe an area of land which may be under the authority of a king or of a commonwealth. The dictionary specifically points out that there is no essential implication of monarchical rule in the word. On the other hand, it is defined as indicating a status superior to that of a colony.

In short, no other word could possibly be found more free of implications of inferiority. Dominion simply means an area of land under common government.

The objections of Quebec, therefore, that the continuance of "Dominion Day" reflects upon Canada's sovereignty are not only invalid but frivolous.

"Dominion Day" means something historically, traditionally and sentimentally. "Canada Day" means nothing. The proposed change is stupid and meaningless.

Seeing Both Sides

A Louisiana man is in the uncomfortable position of being both pro-strike and anti-strike. As a railway engineer he says, "We railroad men have to get a raise in pay." But as the owner of a mercantile business whose employees are on strike he says, "I can't afford to give those guys a dollar and a half a day more."

But if the engineer-factory-owner is seeing both sides of the wage question, so are his striking employees. As factory workers they are saying by a strike "We factory men have to get a raise in pay." But as payers of freight rates which affect prices they are no doubt also saying "We can't afford to give those guys a dollar and a half a day more."

It is to be hoped that the perplexity of this factory-owner engineer will get wide publicity. For his situation is not greatly different from that of the average person on either side of the international boundary. In broad terms everybody wants more pay, but doesn't want to have to pay more—whether to carry on a business or to buy the things his family needs.

Quite clearly we can't have it both ways. Higher wages mean higher prices. If every person got a twenty-five per cent pay increase nobody would be any better off. What people need in Canada as in the United States, is not more money but more buying power for the money they get and have. The only way to build the buying power of the dollar is to produce more goods.

Redistributing dollars in a commodity-vacuum doesn't solve anybody's troubles.

Two Civil Wars

When Russian forces withdrew from Manchuria civil war broke out as Chinese troops moved in to bring that province under control of the national Government. The same thing seems to be happening in Azerbaijan as Iranian troops move in to restore the national authority in that rebellious province, on the heels of the departing Red forces.

Perhaps this is just coincidence. The hostilities might have flared up soon or later in both cases. There is nothing to show that Moscow fostered the insurgency movements. But the Russian occupation troops in both cases formed a protective screen behind which the disaffected factions had opportunity to regroup, organize and place their forces, and thus make ready to resist the restoration of national authority.

There were reasons why, in the interests of Russia, the Red army units should have delayed departure from both these border zones. Presumably those were the reasons they stayed. But had they left Manchuria months ago the Communists could not have developed the formidable strength they are now showing. And had they got out of Azerbaijan by the date named in the treaty, the Iranian Government forces would have met comparative little resistance there.

Whether they helped or did not help to foment discontent, the Russian occupation

troops in these far-separated provinces obviously did nothing to help China and Iran recover national solidarity and order. In both they left the lines drawn for civil war on a broad scale—whether or not that was the purpose of their delayed departure.

For Safety's Sake

With four-wheel brakes in good condition and with tires whose treads are reasonably intact, a motorist travelling 30 miles an hour on a first-class road surface requires 73 feet in which to brake his car to a stop. Of this distance, 33 feet are travelled while his foot is moving towards and operating the pedal. At 50 miles an hour, the distance required for a full stop is 166 feet.

These are official and scientifically established figures. They show that even under the most favorable conditions, there is often room for disaster before a car can be halted. If brakes or tires or road are even slightly deficient, the hazard is increased proportionately.

Perfect braking mechanism, therefore, is an important factor in preserving life and property on the highways and on city streets.

Edmonton motorists, with these figures before them, should require little persuasion to see that their brakes are constantly in the highest possible state of efficiency. Neglect to keep them so may mean the life of a child.

'Once Bitten'

Admiral Raeder admits that Germany's representatives went home from the Versailles conference only to start building submarines surreptitiously. The plain inference is that the treaty had been signed.

This carries the treaty-breaking back to a date long before Nazism swept the country and carried Hitler into power on a tide of popular enthusiasm. The plain inference is that the treaty was signed in bad faith, and that from the beginning there was no intention to keep it.

If this detracts anything from the accountability of the Fuehrer and his associates, it only does so by shifting the blame for starting international treachery onto the shoulders of his Prussian predecessors. The Allies should remember the Admiral's testimony when they consider the terms of the new treaty. It was the fault of Germany's leaders that the Allies were deceived once. It will be their own fault if they are deceived again. They will need to write into the treaty provisions for such intimate supervision within the Reich as will make its violation impossible.

Ainu tribesmen of the island of Hokkaido claim that the ancestor of Hirohito stole 100,000 acres of pasture land from them, and they want the land back. The Ainu apparently have doubts that the Emperor's lineage traces back to the Sun Goddess. Stealing land isn't something that would be attributed to a Son of Heaven.

It seems to be getting a habit at Drumheller to settle labor disputes in quick order. Miners at another mine went on strike there, on Friday, because the driver had been ordered from one part of the mine to another. They went back to work on Monday, and the driver stayed on his old job. It is to be hoped the Drumheller custom will spread through the whole industrial set-up in Canada.

1886: 60 Years Ago

The number of advocates enrolled under the Northwest Ordinance of 1885 is 29, of which Regina furnished 11, Calgary four, Prince Albert four, Moose Jaw two, Brandon two, and Port Qu'Appelle, Indian Head, Medicine Hat and Edmonton, one each.

The number of Protestant school districts is 53. There are 28 Catholic school districts.

Seven medical practitioners are registered under the Northwest Ordinance. They include L. J. Munro and H. D. Wilson.

An ordinance which gives seven men a monopoly of the medical practice of the Northwest is a case of law-making gone mad.

1896: 50 Years Ago

LIFE'S DARKEST MOMENT

The U. S. Coal Strike

By Dorothy Thompson

Exclusive to The Edmonton Bulletin

I am afraid the President is in a weak ground in claiming that John L. Lewis' demand for a miners' health and welfare fund to be built up by a royalty on every ton of coal mined, and paid into and administered by the union, is in contravention of the Wagner Labor Relations Act.

An argument can be made that the act prohibits employer contributions to unions. But there are too many precedents established by law to make that argument sound. The check-off has been widely accepted, and is in fact, a national disaster. Rights without attendant duties are a back home and make our payments as so many others had done. This treachery was again repeated in the Legionary of the following month by the same authors. Is it any wonder that their very names are anathema to all of us?

In February, 1945, a delegation of Messrs. H. C. Baker, president, and Alfred J. Sibley, secretary, again travelled to Ottawa, and were at last able, through the kind offices of Mr. Robert Fair, MP for Battle River, Alberta, to receive minister new minister of veterans' affairs, Hon. Ian MacKenzie.

We again presented a Brief and asked for an hour or so, and came out of the same door very little the wiser. We were able to see the Hon. L. L. Leach, minister of finance, who talked a lot about "contractual obligations" and the "sanctity of contracts," but as we were not the "Quiz Kids" we came out just as we had gone in! Or as Old Omar has it:

The Bulletin's Readers Say:

Editor, Bulletin—We have been asked by my colleagues to give an account of what actually transpired recently at Ottawa regarding soldier settlers and their request for clear titles.

This began, as most of you know, some three years ago at Saskatoon, to be exact, on April 9, 1943, Vimy Day. A little more than a year later, on May 24, 1944, a delegation of nine executives of the association (Soldier Settlers' Association of Canada—Ed.) headed by H. C. Baker of Fielding, Sask., presented a brief to the government asking that Mr. Fair's cooperation, went to the prime minister's secretary, and asked for an interview with the prime minister himself. "Surely," he'd fix it up for us—but he never did, for William Lyon Mackenzie King went home to bed and coked a snout at us.

And so, once again, we went back to our little gray homes in the West. A lot of water has gone under the bridges since then, but despite the gray homes in the West, we still have a few shots left in the old locker!

A new idea has been born and finally a new committee came to life and was called the special committee on veterans' affairs. It is composed of 60 MPs who are veterans of one or both Great Wars and whose chairman is Capt. W. Tucker, member for Rouleau, Sask., and the secretary, A. L. Burgess, a civil servant. Last fall we received word from the latter that the newly-appointed committee would hear our case if we saw fit.

And so it came about that we again visited Ottawa, for the third time, and the delegates this time were H. C. Baker, president, Fielding, Sask., Alfred J. Sibley, secretary, North Battleford, Sask., and R. W. Thompson, a Lloydminster, an executive member.

We arrived in Ottawa Sunday, May 13th. On Monday, May 14th, we were received by the committee in room 37 of the House of Commons at 11 a.m. In the absence of Capt. W. Tucker, Mr. D. A. Croll, MP, Spadina, Ont., took the chair, and Mr. Robert Fair introduced the delegation. Mr. Sibley, secretary, read the brief and answered a few questions.

H. C. Baker, president, gave a very descriptive speech which was well received, and R. W. Thompson gave an account of his own experiences, which brought Gordon Murchison to his feet, indeed he told the committee that he was going to help Thompson that he had forced him and his family off his place!

Before adjourning, the members of the committee several spoke in our favor. Messrs. Quetch of Acadia, Alberta, and P. H. Ashby of Edmonton, and T. J. Bentley of Swift Current especially showed plainly that they were in our favor.

Today in Europe

By Randolph Churchill

Exclusive to The Edmonton Bulletin

PARIS—The complete failure of the four-power conference, which was to have prepared the ground for a twenty-one-nation peace conference, will force the Western powers to reconsider the whole basis of their foreign policy. The main theme of British and American policy has been to make every reasonable concession possible in order to build a system of world security in which Russia could play her full part.

As a result of concessions which, particularly in the case of the veto, have strained many consciences, it is true that Russia has been good enough to attend various conferences. But she has attended them only in order to sabotage them. The Western powers must now begin to ask themselves whether they are not paying too high a price for Russian participation in their attempts to create a peaceful and prosperous world.

When all has been said about the immense size and strength of the Soviet Union, the fact remains that her power is not one-tenth that of the British Empire, the United States and Western Europe. Russia will not co-operate, must the rest of the world suffer impotently from her ill-will? Surely not. Though it is only a second best, the Western powers must now begin to try and organize itself without Russia.

Without Russia, decisions cannot be so far-reaching, but at least there will be some decisions. At the best of the world succeeds in organizing itself.

Said Mr. Bentley to H. C. Baker: "I suppose the delegates would be willing to pay a dollar for a clear title." What will the verdict be? Well, as Mr. Asquith used to say "wait and see." But keep close to your radios for you may hear something one of these days. So long, boys.

No. 88129 ALFRED J. SIBLEY, North Battleford, Sask. Secretary.

At the same time, since the conference in Paris failed through Russian intransigence, it must be recognized that the whole concept of big-power leadership has been discredited. One lesson which we all should learn is that, in the future, we may get on better not only without Russia but with the help of the smaller powers. Many of these powers have made magnificent contributions at the meetings of the United Nations. To admit them to future conferences would more than compensate for the departure of the Russians.

Alberta District News Briefs

Peace River Farmers
Threatened by Blaze

FORT ST. JOHN, B.C.—Residents of this Peace River community, observing the heavy, dark clouds hourly rolling in from the west, are hoping that rain is in the very near offing. Forest fires are burning furiously in the district, flamed by high winds.

Last week Walton Bell of Bear Flat, 40 miles west of here, was burned out when flames raged through his barn, granary, threshing machinery, two fanning mills, seed grain and feed. His house was saved.

At Deep Creek, 20 miles west of here, a fire 30 miles long and six miles wide threatens bridges and culverts along the road to Hudson Hope. Telephone poles along the way have been burned although service so far has not been seriously impaired.

After five years away from home, Edward Bennett, son of veteran Peace River parents arrived at his farm home at Bear Flat in time to assist fighting the Walton Bell fire.

Police have been busy throughout the district conscripting fire fighters.

Arm Fractured

CAMROSE—E. S. Ferguson, general supervisor of the Battle River Livestock County Association, suffered a fractured left arm and shoulder when he was struck by the fender of his own car and pinned down. A jack gave way as he was in the act of changing a tire. The Women's Christian Temperance Union met in an annual session for the election of officers as follows: president, Mrs. E. M. Bergh; vice-president, Mrs. Newman; secretary, Mrs. E. Ruff and pianist, Mrs. H. C. Gardner. Dr. A. L. Elford has joined the medical practice of Dr. J. D. Neville. Dr. Elford has been with the Royal Canadian Army Medical Corps during the recent war.

KIDNEY ACIDS
Rob your Rest..

Many people never seem to get a good night's rest. They turn and toss—blame it on "nerves"—when it may be their kidneys. Kidney acids rob your rest and rob your health. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well and use Dodd's Kidney Pills, Dodd's help the kidneys so that you can rest better—and feel better.

THE NEW 1946

More Beautiful and Luxurious

... AND POWERED BY THE GREAT VICTORY ENGINE

THERE IS BIG NEWS about Cadillac this year. For Cadillac has really been improved for 1946. Not just in styling—although the 1946 Cadillac is far more beautiful in every way. Not just in comfort and luxury—although here, too, Cadillac has made great strides... Cadillac's improvement is basic and fundamental! Cadillac built its world-famous engine and transmission for the Armed Services as power units for tanks and other motorized weapons. All during the war, while no passenger cars were being built anywhere, Cadillac's engine assembly line continued to roll. And what is even more important—improvement, too, went steadily ahead. The engine and transmission... which contributed so much to Allied victory... were actually improved more in four years of war than would have been normal in four

years of peace! Cadillac not only had the world's battlefields as a testing ground—but the technical staffs of the army and navy were available as consultants... What an engine this is now! And what a transmission the new Hydra-Matic is! You've never experienced anything even remotely like this "power train" for smoothness, quietness, and quickness of acceleration... Improvement, in fact, is found throughout the car. Comfort is greater, handling is easier, roadability is better. Likewise, there is new interior luxury. Wherever you look, in fact, you will be conscious of a new standard of the world... But the really vital improvement is mechanical. You'll have to take the wheel to see what has happened. Do this as soon as you can... And get your name on the list for the earliest possible delivery.

Obituary

TWO HILLS—A funeral service was held Sunday for Mrs. V. Onechuk, 86-year-old Brouseau resident and old-timer of the community. She came to Canada from the Ukraine in 1905 and is survived by three sons, one daughter, 28 grandchildren and 15 great-grandchildren.

CONSORT—The death occurred last week of Jack Alton, 14-year-old son of Mr. and Mrs. Stanley Linton. In addition to his parents he is survived by two brothers, two sisters and his grandparents.

Buildings have been painted, interiors varnished and necessary repairs made. The road into the springs is in good condition. Sircumline Airways had a plane in Jasper last weekend taking passengers for short "flips" over the park. The company will operate an aircraft service here during the summer months, available for chartered trips to any point in Canada or the United States.

Moves to Coast
MILLET—T. K. Rogne, who recently sold his farm, will take up residence with his wife at Victoria, B.C., shortly. He is 87 years old. Mr. and Mrs. Rogne came from the United States to the Keweenaw district in 1900, buying their present farm the following year. Perry Aikens has purchased a new 11878 from Fred Veasey of Calgary, as an addition to his outstanding Jersey herd. He now owns 40 registered animals.

Administrator

Of Food Urged

Exclusive to The Edmonton Bulletin
WASHINGTON, May 21—(UPI)—Former president Herbert Hoover proposed Monday that the United Nations set up a food administrator to direct world distribution of food to hungry nations.

MR. HOOVER made his suggestion to an emergency session of the U.N. food and agriculture organization, which deals with long-range planning. He has recently returned from a world survey of food conditions.

He proposed that a U.N. food administrator be created to take over the food and agriculture activities of the United Nations relief and rehabilitation on next Sept. 1 "when this immediate world crisis should have passed."

UNRRA's operations are scheduled to end in Europe Jan. 1 and in the Far East in March, 1947. **MR. HOOVER** spoke after the 18-nation FAO meeting heard a message from the world's food and livestock will continue beyond the coming year.

"Everyone realizes now that the worldwide scarcity of cereals cannot be completely overcome until the 1946 harvest," Dr. Truman wrote the international delegates. "Deficits in livestock products will continue a long time."

THE PRESIDENT, indirectly rebuking critics of this country's relief efforts, said the American people have shown "an admirable willingness to do their part in the great humanitarian task of preventing famine in other lands."

British MP Goes

On Empire Diet

LONDON, May 21—(Reuters)—Maj. W. F. Vernon, Labour member of parliament who for the last 12 years has been living on a continental diet, has lost 11½ pounds but says he feels no ill effects. The last three weeks he held his diet to 1600 calories a day but he reduced it last week to 850 a day.

Rent on Mansion

Is \$6,250 Monthly

NEW YORK, May 21—(AP)—A spokesman for the Chase National Bank, just wants to remind—those haven't rented that house with 40 bedrooms, yet. For months now, there has not even been a nibble for the Charles Schwab mansion on Riverside Drive, he said. Nearest they can come to an office of price administration prior for the bathroom house (not counting the bathroom) is \$6,250 a month. Unfurnished, that is.

EDMONTON'S senior baseball season is commencing three days later this year than last, the Dodgers and Arrows having performed the lid-lifting act on May 19, in 1945. U.S. Army Yanks and U.S. Signals, the other two clubs, got underway just a day later.

Twelve of the players appearing on the roster of Cubs and Eskimos will be familiar to Renfrew Park fans. Ralph Morgan, Doug Stewart (Doug got back from a POW camp in Germany in time to play three games last year), Al Superstein, Nick Masikewich, Tommy Brant and Elmer (Lefty) Thomas are with the Cubs.

Bert Culver (Signals), Billy Lupul and Frank (Arrows), Gina Valenti (Yanks) and Doug Stevenson (Dodgers) are with the Eskimos. Bill Price, second baseman for the Eskimos, was with the Junior Canadians last season and is still eligible. Lefty Beller is a former Arrow.

THE REST OF THE BOYS, Dick Elder, Arnold Martin, Gerry Seaman and Howard Peers of the Cubs and Bill Newman, Art Flores, Roy Dean, Bill Whist and Tommy Thomson of the Eskimos are newcomers. Elder is from Regina, Dean from North Battleford, Whist from Winnipeg and Seaman from the Crow's Nest.

Elder, Arlela (Saskatchewan), Emmett Marlow (California) and Newman (California) had their first workout at Renfrew yesterday afternoon, having arrived Sunday. Newman, big first baseman, is a lefty and a "picture ball player" to quote John Ducey, Marlow, an outfielder, is another big fellow and with Arlela, who is a catcher, will probably line up with Ken Smith's Cardinals. Catcher Dick Pickett is expected to reach the city from Spokane in time for the game. Jack MacGill, former arrow, and member of the Boston Bruins during the NHL season, has arrived back in the city and may get back into baseball or of these days.

Acts "Wrongful, Illegal"

Yankees Secure Injunction Against Mexican League

NEW YORK, May 21.—(AP)—Asserting that attempts of the Mexican League to induce American baseball players to break their contracts were "wrongful and illegal," Justice Julius Miller of the United States supreme court Monday granted New York Yankees a temporary restraining injunction against the Mexicans and set May 28 as the date for trial to make the injunction permanent.

On what apparently amounted to a clean-cut victory for the Yankees, Justice Miller declared in a five-page opinion that "no real proof that organized baseball is an illegal monopoly is submitted on behalf of the defendants."

THE OPINION JUST about sent tapper Bernard Pasquel and his co-defendants to the showers. "The scant and fragmentary factual statements contained in the affidavit of Hess (Jerome Hess, Mexican League lawyer) fall far short of establishing any such mon-

Score Three Runs in Fifth to Win Initial Baseball Game

Maple Leaf Juniors Overcome Calder 9-7.

Dick Lowe Holds CNR To 4 Hits

Three unearned runs in the fifth of a six inning tilt cost CNR Calder a win in their initial start in the Edmonton Junior Baseball League at Clarke Stadium Monday night as Maple Leafs marked up a 9-7 victory in a close, but slightly ragged ball game.

The triumph for Earl Samis' Leafs, who were also making their debut into junior ball, put them in a tie for first place in the six-team loop with South Side.

Harold Pruden pitched for the Calder boys and appeared headed for at least a tie when a two-run error completely altered the situation.

Pruden's battery-mate, Don Embert, caught his first game last night and did a good job. Don is a brother of Wally, who pitched in the junior league four years ago. Lou Hlati is coach of the Calder team.

WHEN THERE is a baseball game in progress anywhere in the city it can be taken for granted Frank Doughton will not be far away. And so, Frank of course, was one of the spectators at last night's junior session between Maple Leafs and CNR Calder.

At Renfrew Park

Senior Baseball Season Opens Wednesday Night

Senior baseball returns to Edmonton on Wednesday night, with the opening game of the season between Eskimos and Cubs of the new three-club league scheduled for Renfrew Park, at 6:15 o'clock.

Edmonton Schoolboys' Band of 80 pieces will supply music both prior to and during the game, and there will be a flag raising ceremony immediately prior to the start with uniformed members of the Navy, Army and RCAF participating.

For the traditional first-ball ceremony, Col. Joseph Stilwell, Jr., U.S. Army, will be the pitcher, with Mayor Harry Ainlay batting and Air Vice-Marshal T. A. Lawrence doing the receiving. Chief Const. Reg. Jennings, Edmonton City Police, will act as umpire.

RALPH MORGAN, manager of the Cubs, has named Jimmy Stone, of Toronto, who is stationed here with RCAF, as his starting pitcher, with Tommy Brant and Elmer (Lefty) Thomas as alternates. Howard Peers

Miss Ossendoth Pledges Vows

St. Francis Roman Catholic church was the scene of the wedding party Monday at 9 a.m. when Miss Mary Lou Ossendoth, only daughter of Mr. and Mrs. Adolf Ossendoth, became the bride of Eugene Lawrence Roy, eldest son of Dr. and Mrs. Lawrence Roy of Regina. The Rev. Fr. J. Colman performed the ceremony.

GIVEN IN MARRIAGE by her father, the bride wore a two-piece turquoise blue crepe dress, white flower hat with veiling and she carried a colonial bouquet of pink roses. Her only jewelry was a wrist watch, gift of the bridegroom. The couple was unattended.

Mrs. Ossendoth wore for her daughter's wedding a black crepe afternoon dress, flower hat and a corsage of pink roses.

AFTER THE CEREMONY a wedding breakfast for the immediate family was held at the home of the bride's parents. Fr. Colman proposed the toast to the bride. In the evening a reception was held. Later the couple left for a honeymoon in Banff. Mr. and Mrs. Roy will make their home in Montreal.

The bride is a graduate of the class of 1945 of the University of Alberta in household economics and the bridegroom is a graduate of the universities of Saskatchewan and Toronto.

Dorene Caine Wed at Coast

First United church in Prince Rupert, B.C., was the scene May 9 of the marriage of Miss Dorene Caine, only daughter of Mr. and Mrs. J. D. Caine, formerly of Prince Rupert, and Raymond A. McLean, youngest son of Mr. and Mrs. M. D. McLean of Seattle, Wash. The Rev. R. A. Wilson performed the ceremony. Mr. and Mrs. Caine who with their daughter lived in Edmonton until several years ago, have now returned to take up residence at 907 87 street.

GIVEN IN MARRIAGE by Simon McDonald in the absence of her father, the bride wore a dressmaker's suit of spice brown with turquoise blue accessories and corsage of yellow roses. Miss Helga Watrin was bridesmaid.

Ernest Wood was best man. Wedding music was played by H. T. Locke.

A reception followed the ceremony. Toast to the bride was proposed by Simon McDonald. Servers were the Misses Mona McTear, Margaret Johnson, Marjorie Eby and Joan Taylor.

The bride and bridegroom will take up residence in Prince Rupert.

Rev. James R. Cox Guest Speaker

Speaking of the responsibility of parents and teachers in the missionary education of children, the Rev. James R. Cox, pastor of the United church, was guest speaker at a meeting of Knox United Church Women's Missionary Society at their May meeting. Subject of his talk was "Lift up your eyes and look on the fields."

Mrs. A. P. Wheeler, president, introduced the speaker and Mrs. James Douglas moved a vote of thanks. Mrs. W. Colles led the devotional. Mrs. R. Shaw sang, accompanied by Mrs. Gertrude Campbell.

Comedian, Wife To Get Divorce

HOLLYWOOD, May 21—(AP)—The marriage of comedian Jack Carson and the former Kay St. Germaine was headed today for a divorce court ending. "It is unfortunate," said Mrs. Carson in announcing her intention to sue for divorce, "but it seems to be in the best interests of both parties." The Manitoba-born actor declined comment. Mrs. Carson, who met while appearing on a radio program, were married in 1940 and have two children, Jack, Jr., four, and Germaine, one.

Association Aids Government Program
The annual spring tea and sale of home cooked sponsored by the Edmonton Home Economics Association and usually held the end of May, has been cancelled for this year. It was suggested at the last monthly meeting of the club that this action be taken in support of the government's program of food conservation to aid in the European shortage.

This tea has been held for some years in aid of the club scholarship fund, which makes possible an annual award to a household economics student at the University of Alberta. With the cancellation of the tea, the fund will be supported by contributions from the home economists of Edmonton.

APPA'S STATEMENT ABOUT YOUR NEXT WINTER'S FUEL

THE ONLY WAY that you can be sure of an adequate supply of coal for next winter is to—PLACE YOUR ORDER WITH YOUR COAL DEALER AT ONCE.

Domestic fuel is more readily available in Canada during the early summer months. Coal must be kept moving from the Dealers' Yards to household bins.

DO NOT DELAY, it is your responsibility to order your coal NOW. The longer you put off ordering the less chance you will have of getting a full winter's supply.
